Admission prerequisites	–		
Module coordinator	Dr. Thomas Hertrich		

1. Learning outcomes

Students will acquire in-depth knowledge of assessment techniques. They will be able to complete an administrative process with legal certainty by means of a written administrative act. They will have mastered how to compose an official notification and be capable of producing notifications for each stage of the proceedings (original ruling, remedial decision and notice of appeal). They will be able to identify when a notification should include an order of immediate compliance or when the threat of coercive measures is necessary. They will also be able to integrate the two components mentioned above into the notification, or a demand for payment of the administrative costs incurred. Students will be able to produce notifications for various different authorities and fields of activity.
