17th International Project Week 2015
4th – 8th May 2015

Project Description

Lecturer: Peter Stratton

University/Company: The Psychology Business

Country: Vereinigtes Königreich

Researching Interactions within Families

Content:
An introduction to systemic understanding of family relationships. Developing an outcome measure that reports changes in family relationships: how the SCORE outcome measure has been developed and used internationally. Using the SCORE with Nordhausen citizens and interpreting their responses

Methods:
- Group discussions to create and share understandings of family interactions
- Lectures
- Independent study to follow-up and gather material
- Training in basics of outcome measurement
- Field work to gather data about families
- Small group exercises

Competences and skills to be acquired:
Students will gain insight into ways that families function and change. They will know how to create and interpret a measure of change during family therapy. They will experience administering an established measure

Prerequisite: Basic psychology background

Language of instruction: English

Suitable studies: PUMA, PMG, GUS, HP, TSA, SyBa
