Developing a Strategic Management Plan within a Social Work Context

Content:
To look at and learn the key tasks involved in developing a strategic management plan. The course will deal with and show all of the stages involved in developing and then implementing a strategic management plan both at professional level and, where appropriate, at a personal level.

Methods:
This will involve group work projects, as well as feedback and input from the teacher. Students themselves will develop a strategic management plan within the classroom setting.

Competences and skills to be acquired:
The students will have gained the knowledge and understanding of the steps involved in developing a strategic management plan within a social work context. They will be able to play a full and comprehensive part in developing a strategic management plan. Students will see the value of and be motivated to develop strategic management plans when appropriate within their own working and professional environments.

Prerequisites:
Students are prepared to come with open minds and get involved in all aspects of the class and our time together.

Language of instruction: English

Recommended for: Social Studies
